

MATERIAL SAFETY DATA SHEET.

BEAUTY DROPS VITAMIN E MOISTURIZER 2 OZ WT.

MSDS Preparation Date: 12/15/16

IDENTIFICATION.

(a) Product Identifier used on Label:

Beauty Drops Vitamin E Moisturizer 2 oz.

(b) Other means of Identification: BD002-VECR0692 Yellow and Black Label.

Bar Code 0 77837 00692 5. White, smooth cream and fragrance free.

(c) Recommended use of product and restrictions on use:

Use as moisturizing cream for all areas of dry or wrinkled skin. Intended for topical use only and not for ingestion.

(d) Manufacturer:

Colonial Dames Co. Ltd., 6820 Watcher Street, Commerce, CA 90040.

(e) Emergency Phone Number 1 800 222 1222

2. HAZARD IDENTIFICATION

(a) Classification of the Chemical:

This product is nonhazardous and does not qualify for classification as a hazardous material.

(b) Hazard Statement:

Not classified as hazardous. This product contains no hazardous materials and requires no precautions.

(c) Any Hazards not otherwise Classified:

None. Material consists of ingredients that are regarded as safe for cosmetics use.

(d) Ingredients with unknown Acute Toxicity:

This product does not contain any ingredients with unknown acute toxicity.

3. COMPOSITION.

(a) Chemical name with concentration in percentages by weight and CAS Numbers where available:

Water, Mineral Oil [8042-47-5] 3.0 %, Tocopherol Acetate [58-9-7] 9%,
Glyceryl Stearate [123-94-4-1] 4.00%, Stearic Acid [57-11-4] 3.00%,
Triethanolamine [102-71-6] 1.00%, Isopropyl Myristate, [110-27-0] 3.00%, Cetyl
Alcohol [36653-82-4] 2.00%, Propylene Glycol [25372-69-4] 3.00%, Sorbitol [50-
70-4] 4.00%, Cetyl Esters [17661-50-6] 2.00%, Lecithin [8002-43-5] 1.00% ,
Methylparaben [99-76-3] 0.15%, Propylparaben [94-13-3] 0.10% Diazolidinyl
Urea [78491-02-8] 0.10%, FD&C Yellow No. 5 [934-21-0] 0.0001%, Blue
1 [3844-45-9] 0.0001%, and Fragrance 0.10%.

4. FIRST AID MEASURES.

(a) Necessary Measures.

None required upon skin exposure or accidental ingestion. Not intended for eye contact, wash with water in case of eye contact.

(b) Most Important Symptoms Effects:

There are no symptoms or effects either acute or delayed.

(c) Indications for Immediate Medical Attention:

No immediate medical attention or any medical attention is required upon exposure or ingestion.

5. FIRE FIGHTING MEASURES.

(a) Suitable and unsuitable extinguishing media: The material is nonflammable and does not require extinguishing media. Do not allow contact with water sensitive materials.

(b) Hazardous Combustion Products: None.

(c) Special Protective Fire Fighting Equipment: None required.

6. ACCIDENTAL RELEASE MEASURES.

(a) Personal Precautions and Protective Equipment: Material is slippery on smooth floors and requires precautions against slipping. No protective equipment required. Clean by flushing to drain with water, or by absorption with paper or absorptive cloth and which can be discarded in landfill.

7. HANDLING AND STORAGE.

(a) Precautions for Safe Handling:

Keep containers closed. Do not damage container or label, do not cover label with stickers.

(b) Conditions for Safe Storage:

Wherever possible store at a normal room temperature of 60 to 75F. Do not expose to heat. Do not freeze or expose for extended periods to temperatures of above 90F.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION.

(a) Permissible Exposure Limits. None required. There are no OSHA PEL limits for this product or TLV or any other exposure limit. No eye or skin protection necessary. No exposure guidelines exist or needed for this material.

(b) Appropriate Engineering Controls.

No Controls required.

(c) Individual Protection Measures.

Non required.

9. PHYSICAL AND CHEMICAL PROPERTIES.

- (a) Appearance: White smooth shiny cream.
 - (b) Odor: Fragrance free.
 - (c) Odor Threshold: Not determined.
 - (d) pH. 6.5-7
 - (e) Melting Point: 105-110° F. 40-45° C
 - (f) Boiling Point: 210-212° F. 99-100° C.
 - (g) Flash Point: Not determined.
 - (h) Evaporation rate: 5g/l/h at 25 °C
 - (i) Flammability: Inflammable.
 - (j) Upper/Lower Flammability Limits Inflammable
 - (k) Vapor Pressure 25 C: 0.0313 atm.
 - (l) Vapor density: Not determined.
 - (m) Relative Density (25 Degrees C): 1.00
 - (n) Solubility in water: Emulsifies.
 - (o) Partition Coefficient: Emulsion, mixture, cannot be determined.
 - (p) Auto-ignition Temperature: Water emulsion, has no auto ignition point.
 - (q) Decomposition temperature: 300 °C
 - (r) Viscosity: Medium Thick Cream.
-

10. STABILITY AND REACTIVITY.

- (a) Reactivity: In general, non-reactive.
 - (b) Chemical Stability: Stable at temperatures below 115° F or 46° C.
 - (c) Possibility of Hazardous reactions: Will react with water sensitive materials
 - (d) Conditions to Avoid: Temperatures above 100 °C
 - (e) Incompatible materials: Materials that react with water.
 - (f) Hazardous decomposition products: None.
 - (g) Hazardous polymerization: Will not occur.
-

11. TOXICOLOGICAL INFORMATION.

- (a) Information on the likely Routes of Exposure: The product is intended for use on the skin and is not intended for ingestion or eye contact.
 - (b) Symptoms Related to physical, chemical and toxicological characteristics: There are no symptoms related to the use of this material as a skin moisturizer.
 - (c) Delayed and immediate Effects and Chronic Affects: There are no delayed and immediate effects from short and long term exposure. Vitamin E has mild blood thinning capability upon ingestion of sufficient quantity.
 - (d) Numerical measures of toxicity: There are no numerical measures of toxicity for this material.
 - (e) NTP, IARC, OSHA Carcinogen Statement: None of the ingredients of this product are listed as a carcinogen by these agencies or any other entity or study.
-

12. ECOLOGICAL INFORMATION.

- (a) Ecotoxicity: There is no ecotoxicity in any ecosystem.
 - (b) Contents are fully biodegradable.
 - (c) There is no bio accumulative potential.
 - (d) There is no data on mobility in soil.
 - (e) Other Adverse Effects: There are no other hazardous effects or hazard to the ozone layer.
-

13. DISPOSAL CONSIDERATIONS

The contents can be disposed of in landfill. The used container may be provided to a recycler for recycling. Follow local recycling regulations.

14. TRANSPORT INFORMATION.

(a) UN Number: No UN number is required for non-hazardous substances.

No special transportation requirements are necessary, avoid exposure to excessive heat and cold, and damage to the containers.

(b) UN proper shipping Name:

None

(c) Transport Hazard Classes:

None.

(d) Packaging Group: None

(e) Environmental Hazards:

None.

(f) Transport in Bulk and Special Precautions:

There are no special precautions for transport in bulk except do not transport in direct sun or temperatures in excess of 105 degrees F.

15. REGULATORY INFORMATION SPECIFIC TO PRODUCT.

OSHA: Non hazardous.

CERCLA: Sara Hazard Category: Non hazardous.

Canadian WHMIS: Non Hazardous.

Canadian Environmental Protection Act: Non Hazardous.

EINECS: Non hazardous.

State of California VOC Regulations: No Volatile organic compounds.

16. OTHER INFORMATION:

Date of Preparation: August 11, 2016

This information relates to this specific material. It may not be valid if this material is mixed with other materials, or processed. Colonial Dames provides this information as accurate and complete as possible, but cannot give an absolute guarantee as to the suitability and completeness of this information.
